Built-in flash

Self timer lets you get into the picture

Includes full-featured applications software

Easy Plug-and-Play installation

USB cable included

The ZoomCam 100 USB is a pocket-sized digital camera and PC video camera in one. Use the ZoomCam 100 USB with your computer as a Webcam, or unplug the camera and carry it anywhere. Just point, shoot, and store up to 240 pictures or 15 seconds of streaming video using the ZoomCam 100's built-in memory. Plug the camera into the USB port of your PC and download all of the stored images in seconds using the bundled Ulead PhotoExpress Software. The ZoomCam 100 USB's high-resolution 320 x 240 CMOS sensor and advanced interpolation software give you great looking pictures.

When connected to the PC's USB port, the ZoomCam 100 USB will continuously store or send live videos. You can choose QCIF videos at~30 frames per second, or higher-resolution CIF videos at 10 frames per second. A sturdy, detachable base allows the camera to sit securely on nearly any surface.

The ZoomCam 100 USB has convenient features which make operation easy and fun. An LCD display tells you when batteries are low and how many pictures you can take. Auto-exposure, Auto-focus, and Auto white-balance control allow point-and-shoot operation. An erase function allows the easy deletion of the last picture taken or all pictures in the camera. An automatic power-off setting maximizes battery life. And the ZoomCam 100 USB is small enough to take wherever you go, so you'll never miss another important picture.

Features

- 100K pixel CMOS colour image sensor
- Auto-exposure, Auto-focus, and Auto white-balance control
- Built-in flash
- Erase function
- Automatic power off
- LCD battery capacity indicator
- LCD pictures-taken indicator
